COMPAX PARTITIONWALL

Peugeot Traveller

Safety and comfort for your passengers

The Peugeot Traveller with the ComPax partition wall is the ideal solution for combining transport of goods and passengers. With the partition wall you create a place of rest, comfort and safety for your passengers.

Enjoy care-free

The Compax partition wall distinguishes itself with an excellent fit with a particularly luxurious look. The use of high-quality base materials ensures a strong, light and highquality end product.

A photograph showing the interior of a Peugeot Traveller. The focus is on the rear passenger area, featuring three black leather seats with white stitching. A black partition wall is visible, separating the passenger area from the front of the vehicle. The seats are equipped with seatbelts. The overall atmosphere is clean and modern.

COMPAX TECHNOLOGY

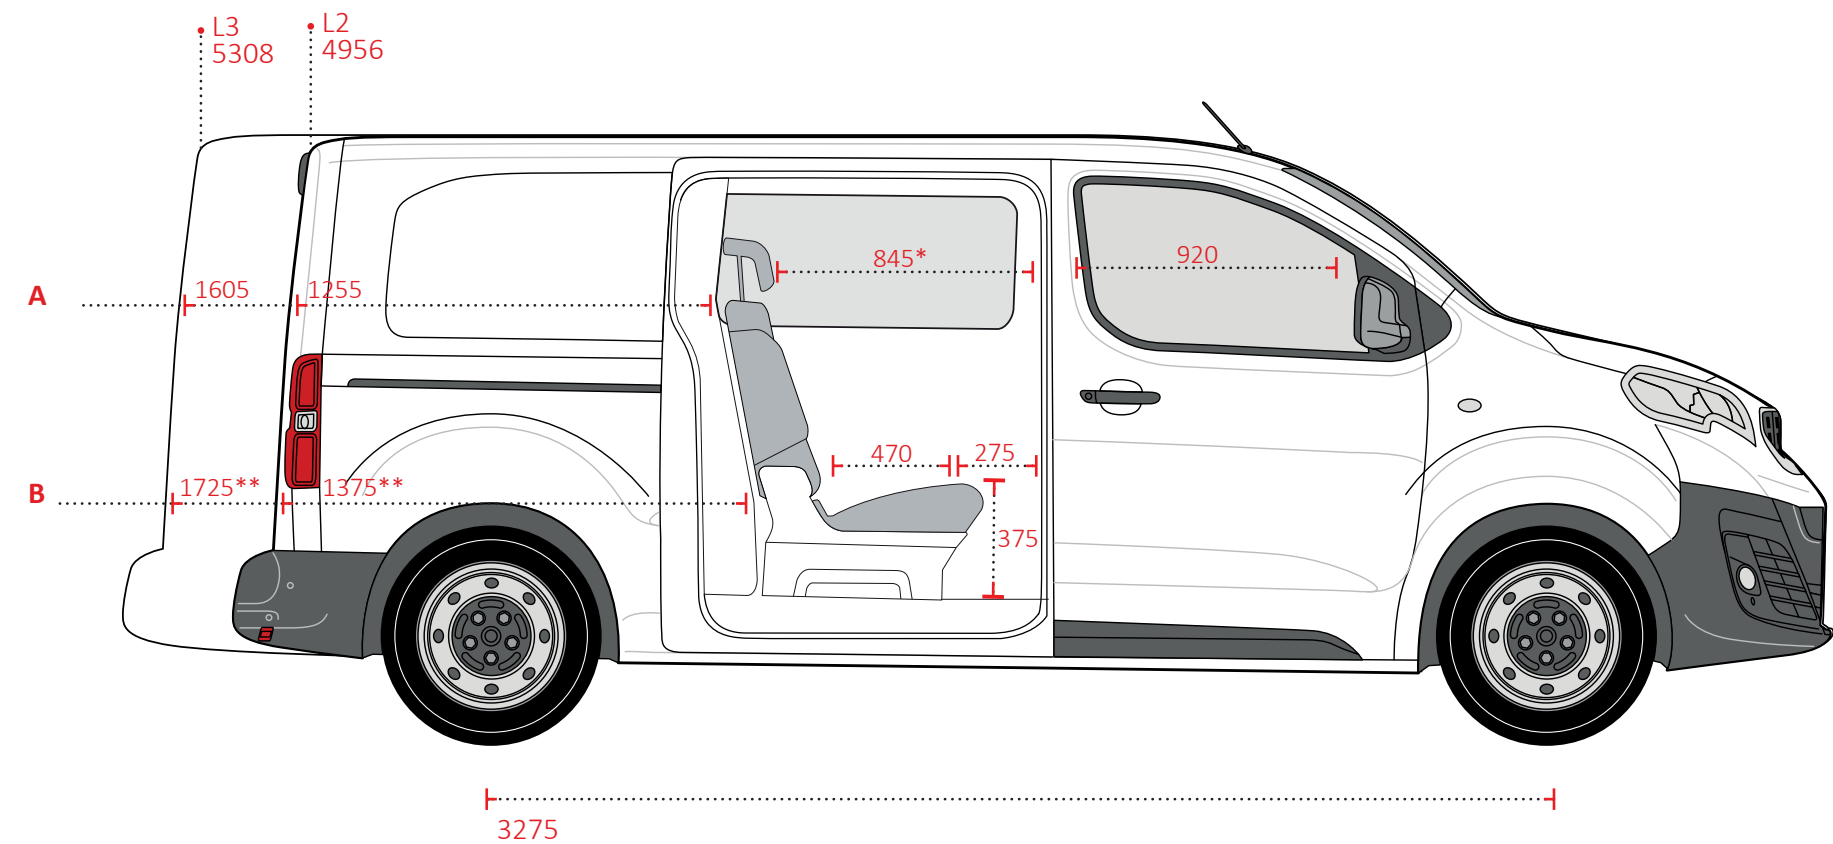

The latest development of Snoeks

The ComPax technology combines a completely new production method with the use of new materials. The technology is used in the safety partitions and headliners of Snoeks. The name ComPax is a combination based on “Comfort” and “Impact”, product aspects that are paramount at Snoeks.

The results:

- Comfort – Passengers experience significant noisereduction through improved sound insulation;
- Lightweight – material that is up to 50% lighter compared to traditional solutions, with positive implications for the total vehicle weight, payload and CO2 emissions;
- Appearance – high-quality experience through luxuriously finished products;
- Safety – extremely high impact resistance to protect passengers from shifting cargo;
- Recyclability – products manufactured with the ComPax technology are suitable for reuse;
- Durability – material is resistant to UV aging.

BASEVEHICLE & DIMENSIONS

* Measured between front-rear head rest pins with front seat
** Belgium fiscal dimension at 200 mm height (NB Only L3 complies).

Note:
Partitionwall weight 9KG

LOAD AREA	A	B
L2	1255	1375
L3	1605	1725
